

SUBMISSIONS ON AIRWAYS' PRICING FRAMEWORK DUE 4 JUNE

You may be aware that last year Airways NZ embarked upon its Service and Pricing Framework Review, an extensive consultation and review project ensuring Airways' service and pricing structures are transparent, consistent and able to meet customers' needs now and into the future.

Airways has now released its Proposed Pricing Framework and accompanying Explanatory Document, and is looking for customer feedback. The closing date for submissions is 4 June.

To download the Proposed Pricing Framework and the Explanatory Document visit our website at

https://www.airways.co.nz/airways_Services/commercial_framework.asp

Customers can also access a calculator that will help to assess how they might be impacted by the proposed changes to Airways' pricing structure. The calculator compares current prices with an indicative price set based on current costs and volumes.
