### **Airways to consult on pricing in February**

In February, Airways New Zealand will ask the public for feedback on its proposed prices for 2013 to 2016.

Airways will release a formal consultation document on 1 February and begin a public roadshow that will clarify the company's pricing proposal.

The consultation document will be available in print and online. Information about the times, dates and venues of the public roadshow will be advertised in the print media and online from January.

Airways' proposed prices for 2013 to 2016 will reflect the company's new Service and Pricing Frameworks. The Frameworks, adopted in July 2012, set out how Airways will continue to deliver high-quality, safe, reliable services at a fair, transparent price.

Keep an eye on the Airways website for more information about the consultation process or contact Airways with any questions by email.
