

To all Operators

At this years NZAAA conference to be held in Rotorua, we have added to the program starting at 1.00pm on the Sunday a seminar for all E Category instructors, Chief Pilots and company managers.

This seminar will replace the traditional “E Cat” meeting that takes place at 4pm the day prior to the conference.

The seminar is titled **“Culture and Professionalism”**

Given the situation that industry will be embarking on a risk based profile strategy, the CAA are showing a strong interest in training and supervision having identified this as a root cause for incidents and accidents. Their intention is to develop a course that is focusing on Agricultural Aviation and based on the Senior Persons course they currently run.

It is the intention of the NZAAA to work with the CAA, but to establish the basis of a “best practice” that can be incorporated into the AIRCARE program.

We believe this is a “must attend” for all Senior Persons and any interested pilot.

There is no additional charge for this seminar and is apart of the NZAAA conference this year

We look forward to seeing you there and keep your eyes open for updates on the NZAAA website

Regards

Graeme Martin
Chair - NZAAA
