

Kia ora,

We are planning on running another hoist operators workshop at RNZAF base Ohakea. The dates for this event are 20 and 21 August 2012.

I am thinking that it will be similar to the one we ran back in 2009 but with more focus on the safe operation of hoist and long line equipment.

Like last time, I am also expecting that we can share ideas, experiences and hopefully, take a look at the new RNZAF equipment.

As the workshop is only two months away, we will need to move quickly to bring it all together. If you have ideas for presentations/discussion topics or practical demonstrations – please let me know (soon).

Unfortunately I have less funding available than I would like. This may require me to either restrict numbers attending or ask that attendees share some of the costs.

In the mean time, please pencil the dates 20 and 21 August into your diary for the 2012 NZSAR Hoist operators workshop.

We'll be in touch soon with more detail.

Regards

Duncan
