

HAVE YOUR SAY ON THE DRAFT NATIONAL AIRSPACE AND AIR NAVIGATION PLAN

Consultation on the draft National Airspace and Air Navigation Plan has begun.

Submissions are invited by 3 February 2014.

The draft National Airspace and Air Navigation Plan sets out New Zealand's Plan for the modernisation of our airspace and air navigation system over the next decade. It outlines the practical steps we all need to take to transition to new technologies and manage airspace as demand increases.

Some of the changes proposed in the draft Plan are significant. They may require you to install new aircraft equipment, develop new procedures and undergo training.

Airspace and Air Navigation Plan Consultation Workshops

To help you to understand the proposals in the draft Plan, and to give you an opportunity to provide us with direct feedback we would like to invite you to attend one of our consultation workshops being held in November.

At the workshops, we will explain the proposals and seek your views on them. The workshops are free of charge and include lunch. You will need to register your attendance via email at consultation@caa.govt.nz by **Sunday, 10 November 2013**.

Auckland	19 November	10 am to 2 pm	Holiday Inn Auckland Airport
Palmerston North	18 November	Midday to 4 pm	Wharerata Function Centre, Massey University
Nelson	20 November	10 am to 2 pm	Grand Hotel Monaco Nelson
Christchurch	21 November	10 am to 2 pm	Air Force Museum Christchurch
Queenstown	22 November	10 am to 2 pm	Mercure Queenstown Resort

Further information

You can find the consultation document and more information about the workshops at www.caa.govt.nz/naanp/naanp_home.htm.

Comments should be submitted by email by close of business **Monday, 3 February 2014** at consultation@caa.govt.nz.

We urge you to take a moment to review the draft Plan that is available on the CAA website at www.caa.govt.nz/naanp/naanp_home.htm and have your say on the direction being set for New Zealand's future airspace and air navigation system.

Yours sincerely

Chris Ford
General Manager Aviation Infrastructure
& Personnel

Steve Moore
General Manager General Aviation
