

QUALITY ~ PERFORMANCE ~ INNOVATION

FOR IMMEDIATE RELEASE

Switlik Parachute Co. is excited to announce that the ***X-Back Air Crew Vest*** and the ***Aviator Pilot and Passenger Life Vest*** are now available with an integrated grab handle and reflective material.

The integrated **grab handle** allows wearers to be pulled to safety in a search and rescue scenario.

The **reflective** material will make sure that the wearer is seen, whether the vest is activated or not.

The X-Back and Aviator life vests are both designed for safety and comfort. The reflective grab handle works well with both vests and is designed to be sleek and low-profile.

It is our goal to be innovative and continually offer new features to our products that your customers want/need.

Please refer to the following part numbers to place your orders:

Aviator	S-9450-1
Aviator with reflective grab handle	S-9450-2
X-Back	S-7200-50
X-Back with reflective grab handle	S-7200-51
