

- *Medicals no more frequently than every 12 months;*
- *Electronic medical system – secure internet forms;*
- *Secure electronic data storage*
- *A pre-existing off-shelf solution where possible*
- *Aligning medical standards across Australasia*
- *A public policy review panel to effect change*
- *The system sourced from the most efficient provider*
- *A target charge of between \$50- \$100.*

While clearly there's going to be a working party around all of this, we'd like to hear your views. If you don't participate in the consultation it's really hard to bring about change. In a read more [click here](#)
