

# **NOW** A PERFORMANCE TRACKING SYSTEM WITH ALL THE TECHNOLOGY BUT WITHOUT THE BIG PRICE!!

## Introducing the **FieldWiz**

FieldWiz is a strategy and physical performance measuring tool for Sports Team players.

It is a standalone device worn on a player's back to collect statistics, which are synchronized at the end of the game or practice to the on line software.

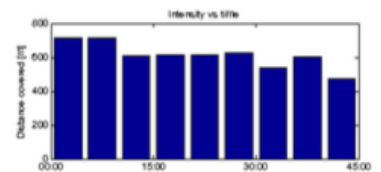

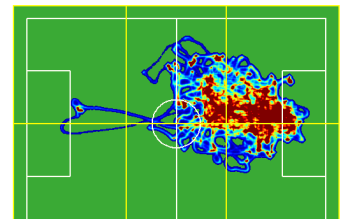

Data represented includes:

### Strategic

- Covered Zones (heat map)
- Distance/time by zone

### Physical

- Distance run
- Distance run by threshold
- Number of accelerations/deceleration
- Metabolic load
- Speed (max/average)

For multiple Pods (the Team) a Docking Station is available for simultaneous charging and data synchronisation of up to 30 devices.

Sold separately is the Zephyr HxM Heart Rate Monitor belt, compatible with FieldWiz plus the Pairing and report integration for HRM belt

**Currently under development and available this year -  
Replay function to analyse any phase of play.**

The technology is already built into the hardware, software programming in progress

- Affordable - Easy to use - Accurate data
- ONE OFF PRICE - no ongoing costs or fees for life of device
- Web based - no software needed, always up to date
- Standalone - no extra hardware required on the field
- Customizable report - collect only the data you need
- Integrates with Zephyr Heart Rate Monitor
