KEYES RING CUTTER

Product Number: 06-4150

Keyes Ring Cutter Stainless Steel. For use on soft metals only. Use Blades 06-4151.

Sklar's® Keyes Ring Cutter is a speciality instrument specifically used for cutting and removing rings from a traumatized or otherwise inflamed finger. It features a thumb screw that turns a sharp, toothed, rotary blade that cuts the ring. The plier handle operates a lower jaw that slides under the ring and protects the finger from the cutting while holding the blade onto the surface of the ring. The Keyes ring cutter is best used on soft metals.
