## FRAZIER SUCTION TUBE

Product Number: 50-2009

Frazier Suction Tube 9 French, 7-1/2" overall, working length 4" from bend

Sklar's® Frazier Suction Tube is a thin instrument used for removing fluid and debris from confined surgical sites such as the nasal cavity, lumbar and cervical regions or intracranially. Suction is controlled by a small hole on the handle and multiple tip sizes are available. The size of the suction tube is indicated by the French measurement scale. This suction tube also feature a thin wire that can be placed into the tube to remove any tissue that may become trapped throughout the suctioning. This product is a size 9 French, angled tube with a 7-1/2 inches overall, working length 4 inches from bend.
