## ADSON TISSUE FORCEPS, 1X2 TEETH - 4-3/4"

Product Number: 50-3050

4-3/4" Adson Tissue Forceps, 1x2 Teeth, Smooth Jaws, Straight, LiteGrip Fenestrated Handle

Sklar® LiteGrip™ Adson Tissue Forceps are for holding and manipulating delicate tissues. These forceps have a wide, flat thumb grasp area that is commonly serrated. The jaws are short and the tips are narrow. Sklar® LiteGrip™ instruments feature a lightweight, fenestrated handle. They are particularly useful during lengthy procedures when fatigue may arise. The finger holes on the handle also allow grip adjustments as needed by the surgeon. This product is straight with smooth jaws, 1X2 teeth, and a length of 4-3/4 inches.
